Model 0257

Pinch Roller

- Bonds at 50 feet per minute
- Safety gates on in-feed and out-feed sides
- Fast, accurate thickness adjustment
- Works with contact adhesive and PVA (white glue)
- Heavy duty construction

Technical Specifications

Electrical: 110 Volt

Maximum Width: 62"

Motor: 1/2 HP

Amps: 8

Air Requirement: 100 PSI

Feed Rate: 50 FPM

Working Height: 30.5"

Maximum Thickness: 2"

Foot Print: 74" X 28"

Shipping Weight: 800 LBS

The Evans Machinery Model 0257 Pinch Roller is a key asset for laminating shops, both large and small. The top roller is easily adjustable to the thickness of the work being laminated. Simply insert the provided spacers 1/8", 1/4", and 1/2" to acquire the desired thickness.

The 0257 is specifically designed to laminate using either contact adhesives or the fast bond PVA's. The Evans Machinery unique design of the pressure roller allows for uniform and even bonding of the laminate to the substrate.

Compare the features and performance. You too will make the same choice professionals all over the world have been making for over 40 years. Evans Machinery is still the number one choice.
